1. Overview

The Open Group® Certification for People: ArchiMate® Certification Program (the Program) makes certification available to people who have knowledge and understanding of the body of knowledge covered by the Program. The Program also provides accreditation for training courses designed to help people acquire the necessary knowledge and understanding of the body of knowledge in order for the person to achieve certification.

The Program is based upon a set of key documents:

1. *The ArchiMate Certification for People: Certification Policy*, which sets out the policies and processes by which an individual may achieve certification.
2. *The ArchiMate Certification for People: Conformance Requirements*, which documents the body of knowledge that an individual must possess to achieve certification.
3. *The Open Group Certification for People: Training Course Accreditation Policy*, which sets out the policies and processes by which a training course may achieve accreditation.
4. *The Open Group Certification for People: Training Course Accreditation Requirements*, which documents the criteria that must be met by a training course in order to achieve accreditation.

These four documents together set out the policies, processes, and requirements for the Program. This document defines the values for the terms used within these documents.

2. Program Configuration

Capitalized terms not otherwise defined herein shall have the meaning ascribed to them in either the ArchiMate Certification Policy or Training Course Accreditation Policy.
